

STOOL NUCLEIC ACID COLLECTION & PRESERVATION

Product Features

- ✓ Easy and user friendly sample collection
- ✓ Transport and store stabilized DNA at ambient temperature
- ✓ Eliminate odor during processing
- ✓ Samples are rendered non-infectious
- ✓ Microbiota profiles are preserved at the point of collection
- ✓ High quality DNA for metagenomics analysis
- ✓ Compatible with various isolation methods

High Integrity of DNA & RNA

* Stability data ongoing

Stable & Reliable for Microbiomes

Pawlowski et al. BMC Genomics 2010 11:59

Reliable microbiota profiles

Eliminate costly cold-chain transport

Homogeneous sample for easy handling

Stable at extreme temperature fluctuations

Maintain DNA integrity for up to 27 months

Maintain RNA integrity for up to 7 days

Minimize variability in data analysis

Eliminate bias due to microbial growth

High Quality DNA Enabling:

Microbiomes

Pathogen
Detection

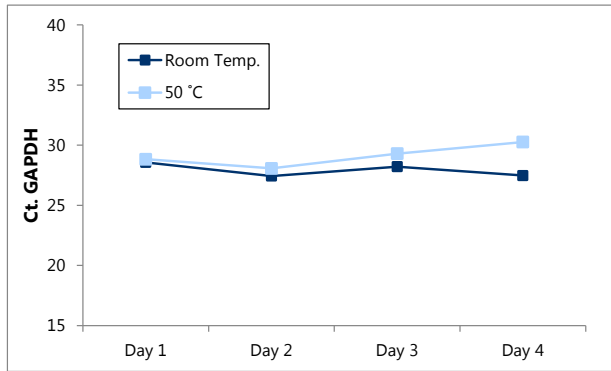

Genotyping

NGS

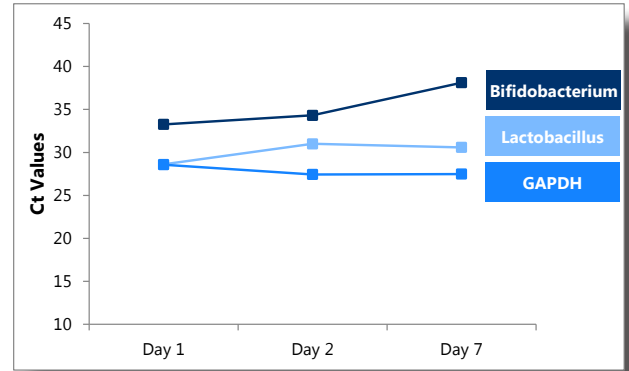

PCR
RT-PCR

STOOL NUCLEIC ACID COLLECTION & PRESERVATION

Stable at Various Temperatures

Efficient Preservation & Lysis

Ordering Information

Description	Prep Size	Cat. Number
Stool Nucleic Acid Collection and Preservation Tube	1 unit	45630
Stool Nucleic Acid Collection and Preservation Tubes	50 units	45660
