

LIMITED USE LABEL LICENSE FOR PIGGYBAC™ VECTORS AND TRANSPOSASE COMMERCIAL END USERS

Information in this document is subject to change without notice.

DISCLAIMER: SYSTEM BIOSCIENCES AND TRANSPOSAGEN AND/OR THEIR AFFILIATE(S) DISCLAIM ALL WARRANTIES WITH RESPECT TO THIS PRODUCT, EXPRESSED OR IMPLIED, INCLUDING BUT NOT LIMITED TO THOSE OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR NON-INFRINGEMENT. TO THE EXTENT ALLOWED BY LAW, IN NO EVENT SHALL SYSTEM BIOSCIENCES, TRANSPOSAGEN AND/OR THEIR AFFILIATE(S) BE LIABLE, WHETHER IN CONTRACT, TORT, WARRANTY, OR UNDER ANY STATUTE OR ON ANY OTHER BASIS FOR SPECIAL, INCIDENTAL, INDIRECT, PUNITIVE, MULTIPLE OR CONSEQUENTIAL DAMAGES IN CONNECTION WITH OR ARISING FROM THE USE OF THIS PRODUCT.

LIMITED USE LABEL LICENSE FOR PIGGYBAC™ VECTORS AND TRANSPOSASE: The purchase of this product conveys to the buyer a limited, non-exclusive, non-transferable license under System Biosciences' license of Transposagen Intellectual Property to use this product and components of this product only to perform internal research for the sole benefit of the buyer for a period of 9 (nine) months from date of purchase. Following the 9-month trial period, purchaser will be required to obtain a nominal technology license in order to continue to use the piggyBac™ technology. If applicable, the buyer may also use standard molecular biology techniques to make additional copies of this product for purposes of internal research for the sole benefit of the buyer. Any buyer that is a for-profit entity may not use this product, its components or materials or cells made using this product or its components to generate any animal without first obtaining additional rights from Transposagen. The buyer cannot sell or otherwise transfer (a) this product, (b) its components, or (c) materials, cells, or organisms made using this product to a third party, or otherwise use this product, its components, or materials, cells, or organisms made using this product or its components for any Commercial Purpose or Development Purpose with the sole exception that buyer may transfer this product, its components, and/or materials, cells, or organisms made using this product or its components to (i) the buyer's legal affiliates, (ii) contract service provider and/or (iii) a scientific collaborator, provided that each such legal affiliate, contract service provider and/or scientific collaborator agrees in writing (1) not to transfer such product, its components, or materials, cells, or organisms made using such product or its components to any third party, and (2) to use such product, its components, and materials, cells, and organisms made using such product and/or its components solely for research as set forth in this limited use label license and not for Commercial Purposes or Development Purposes. If this product is subject to multiple limited use label licenses, the terms of the most restrictive limited use label license shall control.

"Commercial Purpose" means any activity for consideration, including but not limited to: (a) any use, directly or indirectly, in manufacturing, production, production of biomolecules or quality control; (b) any use to provide a service, information, or data for consideration; (c) any use for therapeutic, diagnostic or prophylactic purposes; or (d) any sale, resale, leasing, or licensing, whether or not for research purposes.

"Development Purpose" means any: (a) clinical activity following IND-enabling preclinical toxicological studies or equivalents thereof; (b) activity in any agricultural field trial, including any such field trial that would be subject to regulation by the United States Department of Agriculture if the plants were to constitute genetically engineered organisms under 7 C.F.R. § 340 (or any successor regulation); (c) activity directed towards the submission of data to the United States Department of Agriculture, or any equivalent regulatory agency outside of the United States, in support of an application for clearance, approval or deregulation by such agency; (d) scale-up activities, the primary focus of which is to increase from small-scale to production-scale.

"Transposagen Intellectual Property" means: (a) certain patents and/or patents pending and (b) technical information, trade secrets, protocols, practices, methods, DNA sequences and other knowledge, information and skills controlled by Transposagen ("Transposagen Know-How"), that are necessary and/or useful in buyer's use of this product.
