

Life Science Research Tools

BioCat GmbH

BioCat GmbH, located in the Heidelberg Technology Park in close proximity to the German Cancer Research Center, was founded in 2000 to market innovative products and services for life science research.

BioCat offers a wide range of high-quality research reagents and instruments as well as cutting-edge technologies in the fields of genomics, proteomics and cell biology fueling science in academia as well as in pharma & biotech industry.

We are committed to research and development to supply products with superior performance providing accurate, reliable and fast results. The products and services have been developed by our partners in Canada, Europe and the USA (see reverse side).

Our experienced staff consists of Ph.D.-level scientists with a broad background in different life sciences disciplines to help you with any questions you may have about using our products in your research.
